

Owais Ali

PROFILE

I am Owais Ali, a Full Stack Developer and Software Engineering student with practical experience working in a software house. I have worked on building and maintaining real-world web applications using modern frontend and backend technologies. I focus on writing clean, efficient code and delivering reliable, user-friendly solutions while continuing to grow my skills as a developer.

EXPERIENCE

Maccansoft Corporation

Nov 2025 - Continue

Worked as a MERN Stack Developer, responsible for designing, developing, and maintaining full-stack web applications. Built responsive front-end interfaces using React.js and developed robust backend services with Node.js and Express.js. Managed databases with MongoDB, implemented RESTful APIs, and improved application performance and scalability. Contributed to debugging, code optimization, and delivering high-quality, production-ready solutions.
